DELIGHT IN AN  
ENRICHING  
**AGRICULTURAL**  
EXCURSION TO  
**SAKAEOPROVINCE!**

# Study Tour at ... Sa Kaeo Province

We warmly invite international students from Gifu University to embark on an educational excursion to Sa Kaeo Province, Thailand. This unique journey will explore the region's diverse agricultural practices, abundant natural resources, and rich cultural heritage.

## Highlights of the Tour:

- **The Role of Buffaloes in Traditional Thai Agriculture and Their Decline in the Modern Era: at Kasorn Kasivit Water Buffalo Agriculture School**  
Discover the historical importance of buffaloes in Thai agriculture and explore the challenges they face in the modern farming era. Learn how this iconic animal shaped Thailand's agricultural heritage and how efforts are being made to preserve this cultural legacy.
- **Sustainable Herbal Cultivation: The Case of “Tab Tim Siam 05” in Thailand**  
Gain insight into the innovative cultivation practices behind “Tab Tim Siam 05,” a standout herbal crop. Explore its economic and medicinal significance, and understand how sustainable methods are shaping the future of herbal farming in Thailand.
- **Ban Nongkowitz (Community Enterprise of Handwoven Fabric Group)**  
This community showcases sustainable craftsmanship through handwoven textiles, fabric scrap mobiles, rice noodle production, and brooms made from recycled plastic bottles. The community blends cultural heritage with eco-friendly innovation, making it an inspiring destination for international students to explore traditional wisdom and sustainable practices.
- **Sightseeing at Pang Sida National Park and Sdok Kok Thom Historical Park**  
Enjoy the natural beauty of Pang Sida National Park, known for its stunning waterfalls and biodiversity. Visit the historic Sdok Kok Thom, an ancient Khmer temple, and uncover its fascinating history, architecture, and cultural significance.

## Why Sa Kaeo Province?

Located approximately 245 kilometers from Bangkok, Sa Kaeo Province is renowned for its rich history, natural beauty, and agricultural diversity. Serving as a gateway to Cambodia, the province holds significant cultural, economic, and agricultural importance, offering a unique blend of traditions, cross-border trade, and innovative farming practices. Notably, Sa Kaeo was the original location of College of Creative Agriculture for Society (CCAS), which has played a pivotal role in promoting education, sustainable development, and community engagement in the region.

**Join Us for an Unforgettable Experience!**

## Tentative schedule of Gifu Team during 2025 March 6<sup>th</sup>-8<sup>th</sup>

### Activities at Tubtim Siam 05 (Herbal Medicine Group)

Herbal Compress Ball involves combining various medicinal herbs, primarily those containing essential oils, into a fabric bundle. This ball is then steamed until hot and applied to areas of pain, muscle strain, or sprains to promote relief and therapeutic benefits.

### Activities at Ban Nongkowitz (Community Enterprise of Handwoven Fabric Group)

Eco-printing: The Arrangement of Leaves on Fabric to Achieve Desired Patterns

The image features a variety of green leaves and branches scattered across a white background. The leaves are in different shades of green, from light lime to dark forest green. Some are simple oval shapes, while others are more complex, like a large oak leaf with many lobes or a fern frond with many small leaflets. The veins of the leaves are drawn in a dark brown or reddish-brown color. The text "Coming soon" is centered in a dark green, cursive font with a white outline, giving it a sticker-like appearance.

Coming soon
